

Bibliography Reference

1 Inline Citations

Use `\parencite` for a parenthetical citation: (Knuth 1984).

Use `\textcite` when the author is part of the sentence: Lamport (1994) introduced a document preparation system widely used today.

You can also cite online sources (Wikipedia contributors 2024) or books (Goossens, Mittelbach, and Samarin 1993).

Multiple citations can be grouped: (Knuth 1984; Lamport 1994).

2 Works Cited

The bibliography is printed below with `\printbibliography`.
