

C Code Reference

A basic C program:

```
1 #include <stdio.h>
2 #include <stdlib.h>
3
4 int main(int argc, char *argv[]) {
5     printf("Hello, World!\n");
6
7     /* Loop example */
8     for (int i = 0; i < 5; i++) {
9         printf("i = %d\n", i);
10    }
11
12    return EXIT_SUCCESS;
13 }
```

Inline: use `printf()` to print formatted output to stdout.
